

Dear Mrs.Emily, Mrs.Tracy and All our teachers!

There is no such words that I can express my gratitude to ALL of you! As you know my daughter Reia has joined Raffles Montessory at the age of 2 when we just shifted to Singapore. Being a little bit too caring mother I was really worried how my daughter accomodates with new environment, what will be the atitude of teachers and so so on and so for. All mothers have so many question in mind when they send their small children to school where they canot control or check how is their little one after being with them 24/7.

But since day one Reia loves school and you always help us in every possible way. I dont know much about other kindergartens in Singapore but if I have to choose it once again I would never go to anyone except yours.

As you promised me since day one now at the age of 5 my daughter is fond of reading, mathematics, Chinise language and different logical tasks. The main thing that you have created inside her is love to study. She is always ready to learn new things, she always asks us to explain her something new, or sit with different tests and so on. I never spent much time with her to teach her reading or mathematics, everything was done by you, and I want to thank you from the bottom of my heart!!!

You are wonderful teachers and you love your work and in return children love you!!!

Sincere Regards,
Irina Bharday
mother of Reia Bhardwaj
